

To strengthen our team we are looking for:

Mechanical assembly supervisor (m/f/d)

Your tasks:

- Handling, control, monitoring, preparation and coordination of construction sites
- Technical management of in-house or external staff
- Production of components or entire systems
- Assembly and construction of the manufactured systems/ system parts
- Support during commissioning in-house and if required, at the customer's site
- Carrying our maintenance activities and repairs
- Development and improvement of process solutions together with the departments involved
- Compliance with work safety, the guidelines and provisions of the UVV, the BG, fire safety and environmental protection
- If necessary travel at home and abroad

Your professional profile:

- Ideally experience with the system mentioned
- Completed professional training as industrial mechanic, mechatronic technician or a comparable job description
- If possible, professional experience in the area of pre-assembly
- High level of commitment, independent way of working and the ability to work in a team
- English spoken and written

We offer:

- An interesting and responsible job in a highly motivated team
- A performance-based income
- Very good development opportunities

Send us your meaningful application to:
