

To strengthen our team, we are looking for:

### **Electrical engineer (m/f/d)**

#### **Your tasks:**

- Creation of circuit diagrams with EPLAN, manufacturing documents and technical documentation taking machine guidelines into account
- Design of electrical components
- Compilation of parts lists in the ERP system
- Active participation in our development projects and creation of functional specifications
- Supporting production in the manufacture of control cabinets, control systems and special solutions
- Clarification of technical questions with customers and suppliers

#### **Your professional profile:**

- Degree in electrical engineering or completed technician
- Professional experience in the creation of circuit diagrams with EPLAN in the field of special machine construction
- Understanding of mechatronic processes in machines and systems
- Fun in the conception of new ideas and their implementation
- Very good comprehension skills paired with an analytical thinking ability
- Distinct ability to work in a team and a high degree of initiative
- Willingness to travel occasionally
- Good knowledge of German and English, both written and spoken

#### **What we offer:**

- Exciting tasks in a great team
- Intensive training
- Flexible working hours, home office option
- A modern workplace with state-of-the-art equipment
- Performance-linked wages
