

To strengthen our team, we are looking for:

PLC programmer focus commissioning (m/f/d)

Your tasks:

- Conceptual design, pre-project planning and programming of the software and HMI interfaces for our systems at the head office in Lage
- Execution of program and system tests
- Independent commissioning of the developed software at our worldwide operating customers
- Carrying out training courses at the customer's site
- Clarification of technical questions with all involved departments of the company, with our customers and our suppliers

Your professional profile:

- Graduate engineer, bachelor's degree or technician in the field of electrical engineering/automation
- First experience in the field of automatic systems in the area of special machine construction, preferably web guiding systems would be an advantage (e.g. printing, rotary die-cutting, coating)
- First experiences or already good knowledge in automation with Siemens (S7 Classic / TIA, WinCC Flexible / TIA, Simotion Scout)
- Vocational training in a technical profession is advantageous (energy system electronics technician, mechatronics technician or electrician)
- Enthusiasm for complex, dynamic drive technology, intelligent sensor technology and industrial IT
- Willingness to travel worldwide for several weeks at a time
- Strong enjoyment of working in a team
- Systematic, careful and independent way of working
- Very good German and good English skills, both written and spoken
- Confident, friendly and obliging appearance with the customer

We also welcome applications from committed newcomers, whom we well introduce to the subject intensively

What we offer:

- Exciting tasks in a great team
- Intensive training
- Flexible working hours, home office option
- A modern workplace with state-of-the-art equipment
- Performance-linked wages
